Dear Tibor,

RE: Client Feedback | TJV DESIGNS

The Boat Works, Gold Coast is a dynamic ever-evolving marine facility located in the Gold Coast Marine Precinct. For well over a decade, through commercial and residential developments we have experienced multiple successful outcomes for our working relationship direct with Tibor, TJV Designs.

Recently engaging to create multiple diverse buildings within the multi-million dollar state-of-the art world-class Superyacht Facility.

Designing and implementing a range of a multi-purpose marine facility that incorporates the largest of refit sheds for the Gold Coast at 20m in height, purpose-build workshops with mezzanines and customised interiors, 70 super refits sheds, bespoke Captains & owners lounge, multiple uniquely themed cafés & restaurants, car museums and retro barber outlets along with a range of purpose built showrooms and buildings to accommodate over 80 specialised marine businesses onsite at The Boat Works.

It is a pleasure to work with a true professional who takes the time to genuinely listen.

His fastidious attention to detail, compassionate understanding and ability to understand the client's needs is paramount when working on diverse commercial and or residential projects.

We continually trust and value Tibor's insight with any project given. Always displaying the unique ability to always find a positive resolution offering amazing insight and improvement to enhance the design.

A true professional & gentleman, certainly a valuable asset over the decade for The Boat Works.

Kind Regards

Tony Longhurst
